Dear Russell,

I'm deep into writing about Mailer and can't take much time.

NEVER AGAIN! is in the stores. The index was omitted by accident. It was an accident.

If there was no brain how could those 40 dust-like fragments have been in the x rays of it?

If there was any substitution of copies of the autopsy Humes was not in a position to do it. He turned it in Sunday and it was receipted at the White House that evening. Besides, if there had been changes after that do you think they'd still have had meaningful handwritten changes visible?

If you see anything on any Mailer apearance I'll appreciate copy. He says crazy things often when he opens his mouth. Like his crack I do not have on Larry King on CNN week before last. about evidence I'm told

Best,
